ABOUT TOWN.

Born, to Mr. and Mrs. Jesse S. Thornham, at noon today, a son.

Wm. A. Neale has been appointed inspector of customs at Brownsville, vice J. F. Cummings.

INDIGESTION, resulting from weakness of the stomach, is relieved by Hood's Sarsaparilla, the great blood-purifier and cure for **DYSPEPSIA**.

Three cases of smallpox were found at the Durazo ranch, beyond the Jagon plantation, and taken charge of by County Physician Combe. The cases, which are all well developed, have been isolated, and fifteen persons who were exposed to the disease are also under quarantine.

The case of Ricardo Huerta, charged with receiving smuggled property, was examined before U. S. Commissioner Kowalski yesterday evening. The defendant was bound over in the sum of \$100 to await the action of the next federal grand jury, and in default of bond, was returned to jail.

In Honor of the Future Governor

An elegant ball and reception were tendered to Hon. P. Arguñales in Matamoros last night, by the Matamorenses club, at the opera house. It was largely attended by leading society people of Matamoros, and a number from Brownsville were also present. A sumptuous supper was served to the guests at midnight.

Late Items.

A sensational story is published in Paris, saying that the late Dowager Empress Frederick of Germany was secretly married in 1896 to Count von Seckendorf, and lived happily as man and wife, though Emperor William never recognized the marriage.

Miss Clara Maas, a nurse at the Las Animas hospital in Havana, who was bitten by a yellow fever infected mosquito in order to become immune, died of the fever last Saturday. This is the third victim of the mosquito experiment.

Renewed efforts will be made to obtain a pardon for Mrs. Florence Maybrick after the coronation of King Edward. She has now served twelve years of the life sentence given her on conviction of poisoning her English husband, of which her friends contend she is innocent.

Turkey has agreed to settle the French claims, and trouble is averted.

Lazy Liver

"I have been troubled a great deal with a torpid liver, which produces constipation. I found CASCARETS to be all you claim for them, and secured such relief the first trial, that I purchased another supply and was completely cured. I shall only be too glad to recommend Cascarets whenever the opportunity is presented."

Some improvements are being made on the school building, in the way of cleaning and fixing up, preparatory for the opening of school next month.

Some improvements are being made on Sheriff Closner's residence by Contractor Hanson.

A fine rain fell here yesterday afternoon.

A grand series of bailes is advertised to take place at the Guadalupe ranch, this county, from the 1st. to the 7th. proximo.

A fine rain fell at Reynosa, Mexico, yesterday.

Only three boarders are now stopping at Hotel Closner.

More machinery has been ordered for the Closner sugar plantation to replace that which was lost on the schooner Dickson.

Military Change in Tamaulipas.

News has been received here that orders have been issued by the Mexican war department, consolidating the Fourth Military zone, which consist of the state of Tamaulipas, with the Third Military zone, with headquarters at Monterey, Nuevo Leon. General Emiliano Lojero, heretofore commanding the Fourth zone, with headquarters in Matamoros, has been ordered to proceed to the state of Jalisco for duty.

This change will be a serious loss to Matamoros. The departure of General Lojero will also be much regretted, as he has been greatly liked by the people of this frontier during his tour at Matamoros.

MRS. KING BUYS LAND.

The Laureles Ranch Sells Her 110,000 Acres in Nueces County.

Mrs. Richard King of Nueces county, the cattle queen of Texas, or of the United States, for that matter, has just bought from the Texas Land and Cattle Company, owner of the Laureles Ranch, 110,000 acres of land lying southwest of Agua Dulce creek, in Nueces county, and adjoining her pastures, which were already considerably over 1,000,000 acres in extent. The King ranch, known throughout the entire live stock world as the "Santa Gertrudes," is beyond doubt one of the best appointed and most successful ventures of the kind conducted in the world. The price of the land just purchased could not be ascertained, but is generally believed to run close to \$3.00 per acre.

Mrs. King, besides being the largest individual owner of land in Texas, is the owner of the largest number of cattle most certainly of any woman in the United States, and it is exceedingly doubtful if any cattle baron brands so many calves as she. There has been about 22,000 head of young steers and yearling heifers sold off the ranch this year, and the number now on the ranch is by a most conservative estimate placed at 100,000 head.

Mrs. King takes no active part in the management of her vast estate, and it has been brought to its present state by the wonderful executive ability and sound judgment of Robert J. Kleberg, who has had complete charge of every detail for the past twelve or fourteen years.

The action of the Laureles people in selling off such a large proportion of their land holdings would indicate an intention on their part of eventually closing out their business, but there is no one who seems to know anything about it now.—San Antonio Express.

Only a Mask.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Papists and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."

A Sustaining Diet.

There are the enervating days, when, as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla in such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.
